

Photo Booths made fun and simple!!

- **Sleek Modern Open Air Booth** – Not your mamas photo booth. No big clunky ugly photo booth taking up space at your event!
- **Professional Backdrop and Props** – Let the fun begin! Festive gold backdrop and relatable props for your themed event. (exp. Wedding props for a wedding)
- **Self Serve Touchscreen with Attendant** - Guests use touch-screen interface to take their own photos but we provide an onsite attendant to set up, tear down, and help you with anything needed.
- **Different Experiences to choose** – You can take simple pictures or try other experiences such as Gifs, Boomerang, and Green Screen.
- **Texting/E-mailing Images to your Phone for sharing** – This is what everyone wants anyway! Low quality paper prints get thrown away! With online sharing, your event gets notoriety on social media immediately!
- **Images Download to an Event Website** – Let the buzz and fun continue, as those who use the booth will also get to view photos taken by others on a personalized website with just your event images.
- **Client gets all Images to keep after the event** – You will get all images to use as you please! Keep them as a great memory or use them to promote and excite everyone for another future event.
- **Affordable!** – The best part! \$400 for a three-hour minimum and \$100 per hour after that. Add extra personalization for \$100. Mileage fee extra if event is located outside of the Indy area. \$200 non-refundable deposit at booking. Balance due at event start. We keep it easy and simple!

You provide the wifi, table for props, and outlet. We supply the rest!
